DANIUED REMAN JULIEN

Software Engineer | Email Development & Automation | AI Graduate Applicant

Batticaloa, Sri Lanka | +94 77 101 5137 | kdaniued@gmail.com | halneo.com | linkedin.com/in/reyman-julien-daniued-121a5a166

EDUCATION

BSc (Hons) Software Engineering, First Class | Cardiff Metropolitan University, United Kingdom
November 2024–November 2025 | Delivered through the International College of Business and Technology (ICBT), Sri Lanka

Higher Diploma in Software Engineering and Computing, Distinction | Cardiff Metropolitan University, United Kingdom
November 2022–November 2024 | Delivered through the International College of Business and Technology (ICBT), Sri Lanka

RESEARCH & TECHNICAL PROJECTS

Smart Operation & Beneficiary Tracking System for the Department of Agriculture | BSc Final Project | Supervisor: R. Vijayakumar, MSc in Computer Science

- Designed and developed an academic web-based working model to replace fragmented paper and spread sheet records used by agricultural officers in Batticaloa with centralized, role-based reporting and beneficiary tracking.
- Applied an Agile process and built the system using PHP, cloud-hosted MySQL, HTML5, CSS3, JavaScript/jQuery, Figma, Git and GitHub; designed integrations for WhatsApp harvest notifications, Google Maps asset visualization, and offline data capture with synchronization.
- Produced differentiated dashboards for district administrators, agriculture instructors and farmers, together with database scripts, testing documentation,deploymentguidance and the final dissertation.

Agentic Email Build-Loop Engineering Workflow | EDM Squad | Supervisor: Nusair Ahamed, Team Lead

- Engineered a guided Figma to Handlebars workflow that verifies desktop and mobile designs, maps campaign URLs, exports separate image and call to action slices, assembles reusable partials and JSON, and compiles responsive email HTML with Gulp.
- Documented workflow rules and human quality-assurance checkpoints to preserve design fidelity, email-client compatibility, accessibility, andanalytics tracking; delivered a successful pilot compile while progressing toward an autonomous build loop.

Halneo Digital Enablement Platform for SMEs | Founder / Product Builder

- Building a platform that helps small businesses establish an online presence, organize products, and strengthen day to day digital operations.
- Using participant feedback from the Community Engagement Project to refine onboarding and practical support for entrepreneurs.

Research Interest: AI-Driven Digital Transformation of Sri Lankan SMEs

- Exploring how accessible AI, automation, and data informed workflows can improve productivity, digital visibility, and decision-making for resource constrained enterprises.

PROFESSIONAL EXPERIENCE

Front-End Engineer | Maytech Technologies, Colombo, Sri Lanka | July 2025–Present

- Develop responsive, accessible interfaces from design specifications using HTML,CSS, JavaScript, and reusable UI patterns.
- Contribute to agentic email build-loop engineering under Team Lead Nusair Ahamed, developing a guided Figma-to-Handlebars workflow with URL mapping, modular asset exports, automated assembly, and human-reviewed compilation.
- Collaborate with designers, back-end developers, and project stakeholders to translate requirements into maintainable front-end components and deliver feature updates.
- Support quality assurance, workflow improvement, and timely delivery across client-facing digital projects.

Software Engineer Intern (Full-Time) | Swivel Tech, Colombo, Sri Lanka | 2022–2025

- Built responsive email templates and web layouts from Figma designs using HTML, CSS, JavaScript, and Handlebars while completing the BSc program part-time.
- Tested templates for rendering and responsiveness across major email clients and devices; supported accessibility, content integration, and marketing automation delivery.
- Worked with platforms and tools including Adobe Campaign, Mailchimp, Email on Acid, Figma, Git, Jira, and Confluence.

ICT Instructor | Department of Rural Development, Batticaloa, Sri Lanka | 2020–2022

- Taught information and communication technology fundamentals, basic programming, robotics, electronics, sensors, and introductory Internet of Things activities through hands-on lessons.
- Guided learners in applying technical concepts through small practical projects and problem-solving exercises.

DANIUED REMAN JULIEN

Software Engineer | EmailDevelopment&Automation | AIGraduate Applicant

LEADERSHIP, FELLOWSHIPS & COMMUNITY ENGAGEMENT

Community Engagement Exchange (CEE) Fellow | U.S. Department of State / IREX | United States | March–June 2026

- Completed leadership and community-engagement programming and a practicum with Urban Harvest in Houston, examining community based systems, sustainability, and local enterprise support.
- Designed and began implementing a six month Community Engagement Project with the MJF Centre East to strengthen the digital capacity of women entrepreneurs and SME participants in Eastern Sri Lanka.

Young South Asian Leaders Initiative (YSALI): Entrepreneurship | 2025

- Completed virtual programming and the South Asia regional workshop in Dhaka, Bangladesh; credential issued December 2025 through the University of Nebraska at Omaha / Center for Afghanistan and Regional Studies.

Founder / Director | Easliv Verde (Pvt) Ltd | Sri Lanka

- Established a registered venture focused on practical digital solutions and environmentally responsible enterprise development leads development of Halneo and SMEs focused initiatives.

Youth and Community Engagement | American Corner Batticaloa and YMCA Batticaloa

- Contributed to youth programs, workshops, civic-engagement activities, knowledge sharing, and community service initiatives.

SELECTED COMMUNITY ENGAGEMENT PROJECT

Digital Empowerment for SMEs and Entrepreneurs | Project Lead | 2026

- Partnered with the MJF Centre East to deliver a six-month, no fee practical program for entrepreneurs in tailoring, herbal products, palmyrah products, jewellery, food, handicrafts, and related livelihoods.
- Developed hands on modules covering digital identity, product presentation, online visibility, practical digital tools, workflow organization, and sustainable independent use after training.
- Launched the orientation on 5 September 2026 and continued Session 2 on 13 September 2026; collecting participant and business information to measure progress and adapt support.

TECHNICAL SKILLS

Programming & Web	Python, JavaScript, HTML5, CSS3, responsive design, Handlebars, React fundamentals
AI & Data	Pandas, NumPy, Matplotlib, scikit-learn fundamentals, Jupyter, interests in machine learning, NLP, responsible AI, and agentic workflows
Email & Automation	Responsive email HTML, Adobe Campaign, Mailchimp, Email on Acid, marketing automation, cross-client testing
Design & Delivery	Figma, Adobe Photoshop, Adobe Illustrator, UI/UX principles, Git, GitHub, Jira, Confluence, Trello

OTHER CERTIFICATIONS

- International Diploma in Digital Marketing, Level 3 — OTHM Qualifications / International College of Business and Technology (ICBT),September 2024.
- Certified UI/UX Developer — NuMind Education, August 2022.
- National Vocational Qualification (NVQ) Level 4, ICT Technician — Miani Technical Institute / Tertiary and Vocational Education Commission (TVEC), July 2019.
- NVQ Level 3, Computer Applications Assistant — Computer Resource Centre, Batticaloa / Tertiary and Vocational Education Commission (TVEC), April 2019.
- Cambridge International General Certificate of Secondary Education (IGCSE) — British Council Sri Lanka, June 2017; subjects included ICT, Mathematics, Business, Economics, and Accounting.

ENGLISH PROFICIENCY

Duolingo English Test: 120
